WHAT IS OHI?

OHI – We Are Hospitality is a grassroots revitalization initiative, that focuses on hospitality workforce development through career outreach initiatives. OHI brings together people interested in pursuing careers in hospitality, builds strong leadership and enhances best practices within the industry. We will accomplish this by working in collaboration with our industry partners, hospitality businesses, schools, parents and students. Visit the [OHI website](#) for more information.

OHI will take a lead role in benchmarking key industry standards of service, support and best practices and be mentors of excellence for our youth. Workforce does not end with hiring as it also encompasses with retention and development. We will provide resources around development, leadership and coaching for our existing staff to further fill the pipeline with talent and growth.
